S. P.: Be careful in regard to the kind of scap you use on the skin. Castile scap is good and usually agrees with everybody's kin. Both night and morning rinse the face in cold water after washing. This is a splendid complexion tonic. Try softening the water in which you wash with a little oatmeal. The canmeal should be placed in small cheesecloth bags and allowed to soak in the water. You have no idea how wonderfully refreshing to the skin it really is.

"Rheumatism" formerly meant catarrh—the word is derived from a Greek root meaning literally a flow. Latterly the popular idea of "rheumatism" was a pain or soreness in the joints. To-day "rheumatism" means nothing definite, at least not to a doctor, though it still is associated in the popular mind with cold or damp weather, and without the slightest reason.

The Trey O'Hearts

Romantic Tale by Louis Joseph Vance. Convright, 1914, by Louis Joseph Vance

By arrangement with the Universal Film Manufacturing Company, it is possible to read "The Tray O' Hearts" in The Times-Dispatch ar' also to see it in pictures at the Superior Theatro. Synopsis of preceding chapters: The trey of hearts is the death sign used by Seneca Trile in the private war of vengeance, which, through the agency of his daughter Judith, a woman of violent passions like his own, he wages against Alan Law, son of the man (now dead) who was innocently responsible for the accident which left Trine a helpless cripple for life Alan loves, and is loved by Rose, Judith's twin and double, but in all other respects her opposite. Judith vowe to compass Alan's death, but Alan saves her life under dramatic chroumstances, and so, unwillingly, wins her love. Thereafter Judith is actuated in turn by the old hatred, the new love, and Jealousy of her sister Rose; she couse of the aid she has extended Alan in his flight with Rose from the vengence of Trine through the mountains of Western Arizona. Alan Rose and Barcus are captured by Trine's agents, bound and lowered down the shaft of an abandoned mine.

CHAPTER NCHI .- IMMURED.

That much accomplished, a pause of profound consternation followed. The darkness was absolute in the tunnel, Jimmy having taken the candle away with him; and its silence was rendered uncanny by the sobs and murmurs of the lovers, that sounded somehow fearfully remote and inhuman to Barcuswho had turned immediately to the blukhead and was, without the slightest hope, groping about its joints and crevices in search of some way of

In the tunnel that branched off from the main shaft beyond the bulkhead, some thirty minutes before this juncture, a candle had guttered in its stick, left carelessly thrust into the wall by Marrophat's lieutenant, and guttering, had dropped a flaming wick into a little heap of bone-dry debris. This last flamed, licked hungrily at the timbering that upheld the walls of the tunnel. The timbering caught fire without delay. In a space of time incredibly brief the flames were spreading right and left, the tunnel was vault of blistering fury-

As Alan said his last mute fare-well to Rose and Barcus, the fire spread out in the bottom of the shaft and invaded the powder-room. Alan had guessed aright at Marro-phat's design; the keg of blasting pow-der was less than an eighth full; its explosion could not possibly have ef-fected the cave-in Alan had at first feared. feared.

But what Marrophat had overlooked was the proximity to the keg of some several sticks of dynamite masked by a film of earth that had fallen from

the crumbling walls.

When the blazing fuse dropped sparks into the blasting powder this sparks into the blasting in the dynamite took its one without the least delay.

dynamite took its one without the least delay.

The resultant detonation was terrific. The bulkhead was crushed in like an eggshell barrier. Part of the walls fell in, but the tunnels and shaft remained intact. The released flood streamed out and spread swiftly to the farthest recesses of the burning tunnel. Dense clouds of steam filled that place of terror as the fires were extinguished.
